

src/travelexpense/header
/encryption.h

```
graph TD; A["src/travelexpense/header/encryption.h"] --> B["cstdint"]; A --> C["cstdintdef"]; A --> D["export.h"];
```

The diagram illustrates a header file dependency structure. At the top, a box labeled 'src/travelexpense/header/encryption.h' has three blue arrows pointing downwards to three separate boxes: 'cstdint', 'cstdintdef', and 'export.h'.

cstdint

cstdintdef

export.h
